# MEDISANA®

## MEDISANA CONNECT YOU AND YOUR HEALTH CONNECTED

# VitaDock® Online

## Store. Synchronize. Share.

Transfer your vital data to VitaDock® Online and benefit from the numerous features to view and display your data in the online portal.

VitaDock® Online by Medisana® enables you to save, access, analyse and export your own health data such as blood pressure, blood glucose, temperature, weight and activity. Additionally you can synchronize your data stored in the online portal with the VitaDock+ App on your iPhone®, iPad®, iPod touch® and several Android devices and thus always have it readily available.

\* For data transmission, the free VitaDock® PC/Mac® software (available on [www.medisana.com/software](http://www.medisana.com/software)) needs to be installed and a personal, password-protected user account needs to be created. Subsequently you can transfer your measurement results from your PC/Mac® into your secure online account. PC or Mac® with internet connection. USB 2.0 or more recent, Windows XP (SP 3, 32-Bit), Windows Vista (SP 1), Windows 7, Windows 8 Pro, Mac OS X 10.7.

March 2014 – Subject to technical modifications and further developments, also without prior notice. We accept no liability for printing errors, typesetting errors or other mistakes.
